NUTRITIONISTS

PRODUCED  
IN THE  
USA

STAYS  
FRESH FOR  
24 MONTHS

# NO JUNK. ONLY THE GOOD STUFF. ULTRA PREMIUM FORMULA FOR SUPERIOR GUT HEALTH.

Fresh ingredients are flash frozen, then placed in a vacuum chamber.

97% of nutrients from fresh ingredients are retained.

No junk, artificial preservatives, or seed oils

Ready to serve straight from your pantry. Use as a meal or mix-in.

## INGREDIENTS

### FRESH FREEZE DRIED: CHICKEN RECIPE

Chicken, Chicken Liver, Sorghum, Pumpkin Flour, Salmon Oil, Flaxseed, Yeast Culture, Inulin, Salt, Vitamins (Vitamin E Supplement, Niacin Supplement, D-Calcium Pantothenate, Riboflavin Supplement, Thiamine Mononitrate, Pyridoxine Hydrochloride, Vitamin A Supplement, Vitamin B12 Supplement, Vitamin D3 Supplement, Folic Acid, Biotin), Minerals (Potassium Chloride, Iron Sulfate, Zinc Sulfate, Copper Sulfate, Sodium Selenite, Manganous Oxide, Calcium Iodate, Dicalcium Phosphate), Mixed Tocopherols (natural preservative), Liquid Lactobacillus acidophilus fermentation product, Liquid Lactobacillus casei fermentation product, Liquid Lactobacillus reuteri fermentation product, Liquid Bifidobacterium animalis fermentation product.

### FRESH FREEZE DRIED: BEEF RECIPE

Beef, Beef Kidney, Beef Liver, Sorghum, Pumpkin Flour, Flaxseed, Salmon Oil, Yeast Culture, Inulin, Vitamins (Vitamin E Supplement, Niacin Supplement, D-Calcium Pantothenate, Riboflavin Supplement, Thiamine Mononitrate, Pyridoxine Hydrochloride, Vitamin A Supplement, Vitamin B12 Supplement, Vitamin D3 Supplement, Folic Acid, Biotin), Minerals (Potassium Chloride, Iron Sulfate, Zinc Sulfate, Copper Sulfate, Sodium Selenite, Manganous Oxide, Calcium Iodate), Salt, Mixed Tocopherols (natural preservative), Liquid Lactobacillus acidophilus fermentation product, Liquid Lactobacillus casei fermentation product, Liquid Lactobacillus reuteri fermentation product, Liquid Bifidobacterium animalis fermentation product.

### USDA-SOURCED BEEF, KIDNEY & LIVER

Beef liver is rich in vitamin A for vision and skin health, iron for healthy blood cells, and B vitamins for energy metabolism. Beef kidney provides selenium, an antioxidant, and vitamin B12 for brain health. Both are high in protein, supporting muscle growth, and contain coenzyme Q10 for heart health.

### PREMIUM ANCIENT GRAINS

Sorghum is a non-GMO, gluten-free, sustainable ancient grain packed with essential fatty acids, antioxidants and fiber.

### USDA-SOURCED CHICKEN & LIVER

Both are excellent sources of high-quality animal protein, which is essential for maintaining strong muscles, bones, and other tissues in dogs. Chicken is also a rich source of essential nutrients like B vitamins and minerals.

### SALMON OIL

This oil is a rich source of omega-3 fatty acids, which have anti-inflammatory properties and are important for maintaining healthy skin, coat, and joints in dogs. It may also help reduce the risk of certain diseases, such as heart disease and cancer.

### PRE, PRO & POSTBIOTICS

Pre, pro, and postbiotics are three bacterial communities essential for a healthy gut microbiome. Unlike our competitors, we include all three in our dog food so that they can enhance the good bacteria they already have (prebiotics), add more into the mix (probiotics), and experience the benefits of both throughout the rest of the body (postbiotics).

### PUMPKIN

Pumpkin is beneficial for dogs, offering fiber for digestive health, low calories, and rich in nutrients like vitamin A, C, and potassium, enhancing overall health and immunity.

### VITAMINS & MINERALS

Unlike humans, who eat different food for each meal, dogs need vitamins mixed into their food to ensure balance.
