

# Supplement Chews

## DOG WELLNESS THAT GOES BEYOND THE BOWL

Get Joy envisions a future where supplements, like nutrition, are a foundation of longer and healthier lives for dogs. We source a blend of quality active and inactive ingredients optimized for impact—like pre, pro and postbiotics, green-lipped muscles and valerian root—and work with renowned Ph.D. Animal Nutritionists, to develop preventative supplements that address the most important pillars of dog wellness: gut health, stress and joint care. It's a boost of daily support in a single chew that goes beyond the bowl, leaving dog owners with more time to create joyful moments with their canine companions.

## WHY GET JOY SUPPLEMENTS

- Holistic and preventative approach to your dog's wellness through targeted gut, joint, and stress level support
- Daily, delicious supplement chew your dog will love
- Science-backed ingredients that you can pronounce and trust
- Active *and* inactive ingredients are optimized for impact and never contain fillers or additives
- Ethically and sustainably made, cruelty-free
- Scientifically proven to target gut health
- Made for all life stages
